CLASS CANCELLATION POLICY

The Woodworking Source reserves the right to cancel any class. Full refunds will be issued in that event. Students withdrawing from a class must notify *the Woodworking Source* as soon as practical. Any consideration as to previously paid fees will be as follows:

Days Notice	Terms available
8 or more	Full refund or store credit available for all class fees
3 to 8	Full credit for instructional fees will be provided as a Store Credit
Less than 3, or No Show	Fees will be forfeited

For labor or material intensive, multiple day or outside-instructor-led courses, we reserve the right to issue special refund or credit stipulations which will be noted in the class information at the time of posting or reservation of a seat in the class.

CABINET MAKING

Cabinet Making 1

CM01

Pre-requisite skills: Basic Safety (SF01)

Learn the basics of cabinet design and construction. In this class each student will learn:

- How to cut wood on a table saw
- How to route decorative edges
- How to create rabbets and dados
- How to cut mitered corners
- How to apply glue and use a pin mailer
- How to build a simple drawer

Duration: TBD

Fee(s): \$nnn plus materials

Cabinet Making 2 – Build a Book Case

CM02

Pre-requisite skills: Basic Safety (SF01)

Building a cabinet requires both a design concept **and** the construction process. This class is a participatory seminar covering construction and the design elements that should be incorporated into a cabinet, whether it be in the kitchen, garage or as a part of furniture. This class covers planning, actual construction, materials, layout, joinery and practical aspects of cabinet design. Each student will build a 24" x 48" Book Case with 4 shelves.

In the class you will:

- Cut wood to size
- Route a rabbet
- Drill shelf pin holes
- Kreg joint the top, bottom and middle shelf
- Brad nail the back to the case

Duration: 6 hours

Fee(s): \$110 plus materials

Cabinet Making 3 – Basic Cabinet with Door(s)

CM03

Pre-requisite skills: Cabinet Making 2 (CM02)

Cabinet Making can be a quite a challenge. In this class the student will build a cabinet with doors. The class will focus on many aspects of cabinet making will instruction on face frames, Euro hinges, shelf pins, using Kreg jigs and screws and much more.

Duration: TBD

Fee(s): \$nnn plus materials

Cabinet Refacing

CM04

Pre-requisite skills: Basic Safety (SF01)

Cabinet refacing is a huge project, and it's hard to even know where to begin. This class is a beginning hands-on class that will teach you how to put a new face on older cabinets. Many companies will charge thousands of dollars to do a small number of cabinets; in this class you can learn how to do it yourself. The subjects covered will include cleaning the face-frames, hinge changes, and veneers in iron-on, self-adhesive, and contact cement types. In addition, use of flush-trim routers and handling of both laminates and wood veneers will be covered.

Duration: TBD

Fee(s): \$nnn plus materials

CARVING

Carving for Beginners

CR01

Pre-requisite skills: can walk or chew gum

This popular carving class is designed to teach you basic carving techniques and safety. Our expert instructor will discuss different types of woodcarving, the tools used for each type, carving safety, sharpening methods, common woods and sources of information about woodcarving.

Class members will, over the course of two sessions, complete two projects, which will illustrate using the different types of cuts needed to deal with direction of wood grain. Various finishing techniques will be tried.

Duration: 6 hours, over 2 sessions

Instructor: TBD

Fee(s): \$65

Intermediate Carving

CR02

Pre-requisite skills: Carving for Beginners (CR01)

Take your carving to new heights with this course designed to teach you more intricate approaches and styles than you have seen before. The projects in this class will teach more complex shapes in three dimensions, as well as some different finishes to achieve different effects.

Duration: 9 hours, over 3 sessions

Instructor: TBD

Fee(s): \$85

Holiday Carving Projects

CR03

Pre-requisite skills: None

This is an all skills class- for everyone from a beginner to advanced carvers, with projects and instruction appropriate to your skill level. Even if you've never before done hand carving, this class will be fun and educational- as well as making excellent gifts in the process! Some of the projects include angels, elves, and Santa figures, for both mantle and tree.

Duration: 9 hours, over 3 sessions

Instructor: TBD

Fee(s): \$85

Intermediate Carving – Cottonwood Bark

CR04

Pre-requisite skills: Carving for Beginners (CR01)

Special classes using cottonwood bark. Focusing on special techniques for carving faces, figures, villages, (stone, doors, windows, shingles etc.). Learn fine details for painting, wood burning and finishing to enhance your carvings.

Duration: 9 hours, over 3 sessions

Instructor: TBD

Fee(s): \$85

FAMILY CLASSES

Innovative classes designed to be a fun and educational experience for the entire family. These classes are normally held on a seasonal basis. Family classes can also be scheduled for special occasions such as group events, birthday parties etc.

Pencil Holders

FC01

Pre-requisite skills: None

Great fun and easy craft that kids can learn quickly. Decorate these preassembled unfinished wood holders and add your own personal touch. Ages 6+

Duration: 1 ½ Hours

Instructor: Varies

Fee(s): \$12.50

Bird Feeder

FC02

Pre-requisite skills: None

Build and Paint a Birdfeeder Kit. Easy to build large wooden birdfeeder requires no nails. Unique design allows parts to snap together on the attached pegs. Thick 5/16" wood used. Includes wood pieces, six paint pots, paintbrush and instructions. Assembled size is 5 ½" x 7" x 7". Ages 6+

Duration: 1 ½ Hours

Instructor: Varies

Fee(s): \$35

Tool Tote

FC03

Pre-requisite skills: None

A tote for all your tools! This tote is 14 ½" long by about 6" wide- the perfect size for a beginning woodworker or gardener! This project will involve measuring, drilling, gluing and Kreg™ jig work as well. Ages 8+

Duration: 1 ½ Hours

Instructor: Varies

Fee(s): \$15

Toy Kits

FC04

Pre-requisite skills: None

Pirate Ship or a Train Engine – assemble these kits and make a great toy. Each kit assembles with glue, and has a set of paint colors to decorate it however you like. Ages 8+

Duration: 1 ½ Hours

Instructor: Varies

Fee(s): \$15

CD/DVD Box

FC05

Pre-requisite skills: None

This is a box suitable for several CD or DVD jewel cases, and is a quick way to organize them in a stackable, pleasant-looking manner. This project will involve measuring, drilling, and glue work as well. Ages 10+

Duration: 1 ½ Hours

Instructor: Varies

Fee(s): \$10

Carving

FC06

Pre-requisite skills: None

Learn to carve three-dimensional objects safely with simple carving techniques and tools. Ages 10

Duration: 1 ½ Hours

Instructor: Varies

Fee(s): \$12.50

Turned Pen

FC07

Pre-requisite skills: None

Learn to create a wooden pen! You will come away with a finished pen your friends will envy. Here you will learn the basics of lathe turning and finishing, as well as assembly of a pen. Ages 10+

Duration: 1 ½ Hours

Instructor: Varies

Fee(s): \$15

Key Chains

FC08

Pre-requisite skills: None

In this class you will have the chance to learn to turn a beautiful key chain fob. You will learn the basics of lathe turning as well as finishing, decorating with some interesting turning tricks and finally, assembly. Ages 10+

Duration: 1 ½ Hours

Instructor: Varies

Fee(s): \$15

Catapult

FC09

Pre-requisite skills: None

This wood catapult really works once assembled. Includes laser cut wood parts, rubber band and is fun to decorate. A contest will be held for the catapult that can hit a target. Ages 10+

Duration: 1 ½ Hours

Instructor: Varies

Fee(s): \$15

Scroll Saw

FC10

Pre-requisite skills: None

In this class you will use the scroll saw to cut out a variety of shapes for decorative items such as napkin rings and puzzles. You will learn the versatility of this wonderful tool, and have fun while doing it! Ages 10+

Duration: 1 ½ Hours

Instructor: Varies

Fee(s): \$15

Step Stool

FC11

Pre-requisite skills: None

This small step stool/bench is 8"x14" and 9" tall- enough for a little boost just when you need it! This project will involve measuring, sawing, drilling, gluing and Kreg™ jig work as well. Ages 10+

Duration: 1 ½ Hours

Instructor: Varies

Fee(s): \$15

Construction Vehicle

FC12

Pre-requisite skills: None

In this class we will build a construction vehicle that is over 12" long using simple saw cuts and assembly. Ages 10+

Duration: 1 ½ Hours

Instructor: Varies

Fee(s): \$25

Turned Tops

FC13

Pre-requisite skills: None

This class will cover the making of wooden tops. These little spin tops are a ton of fun, both to turn and to play with! Take a small block of wood- and from it, make a fun toy. You will learn the basics of turning and finishing on a lathe, as well as some decorating "tricks". A contest will be held for the top that spins the longest. Ages 10+

Duration: 1 ½ Hours

Instructor: Varies

Fee(s): \$35

Wine Gift box

FC14

Pre-requisite skills: None

Wine Gift Box - In this class, you will learn about box making on the table saw. We will make a box with a sliding lid, a great way to share that special wine or champagne with your friends! This class is for adults or older children.

Duration: 3 Hours

Instructor: Varies

Fee(s): \$45 plus \$11.50 for materials

Luminaries

FC15

Pre-requisite skills: None

Students will built a beautiful luminary with a star design. This can be a lovely accent to a room or makes a great gift.

Duration: 3 Hours

Instructor: Varies

Fee(s): \$35

HOUSEHOLD PROJECTS

Cheese Board

HP01

Pre-requisite skills: Basic Safety (SF01)

Learn the basics of woodworking in this class. We will make a cheese board using different hand and power tools with an emphasis on safety and on becoming comfortable using power tools. You will go home with a beautiful cheese board that you will be proud to use with your family or guests!

Duration: 3 hours

Fee(s): \$70 plus \$9.75 for materials

Bread Board with Dipping Bowl

HP02

Pre-requisite skills: Basic Safety (SF01)

Learn to create loaf-shaped bread serving board - a decorative and functional breadboard with a recess for a dipping bowl. During the class we will be using different hand and power tools. The emphasis will always be on safety, and allowing each student to create a unique board of their own design. You will go home with a beautiful custom breadboard perfect for serving that special loaf to your guests.

Duration: 3 hours

Fee(s): \$60 plus \$15 for materials

Laminated Cutting Board

HP03

Pre-requisite skills: Basic Safety (SF01)

Two part class. Learn the basics of woodworking in this class. We will make a laminated cutting board using different hand and power tools. The emphasis will be on safety and on becoming comfortable using power tools. You will go home with a beautiful laminated cutting board that you will be proud of!

Duration: 6 hours, over 2 sessions

Fee(s): \$115 plus \$25 for materials

Picture Frames

HP04

Pre-requisite skills: Basic Safety (SF01)

This class is designed to teach you the intricacies of making picture frames. We will use the table saw, and a few other tools specific to picture framing. Each student will make a 5x7 picture frame to take home and use.

Duration: 3 hours

Fee(s): \$60

Gourmet Magnetic Knife Holder

HP05

Pre-requisite skills: Basic Safety (SF01)

Learn the basics of woodworking in this class. We will make a gourmet magnetic knife holder using different hand and power tools. The emphasis will be on safety and on becoming comfortable using power tools. You will go home with a beautiful full knife holder that you will be proud of!

Duration: TBD

Fee(s): \$nnn

Drawer/Flatware Organizer

HP06

Pre-requisite skills: Basic Safety (SF01)

Learn the basics of woodworking in this class. We will make a drawer organizer using different hand and power tools. You will go home with a great organizer to help get your drawer in optimal use.

Duration: TBD

Fee(s): \$45

Lazy Susan

HP07

Pre-requisite skills: Basic Safety (SF01)

Come join us in this simple class and build a lazy susan to use on your dining table or to help organize your shelves! Our experienced instructors will guide you through the layout and cutting of the disc to fit your needs. You will then smooth and shape the edges and mount the hardware. Simple finishing steps will be discussed and you will leave the shop with a finished project.

Duration: 3 hours

Fee(s): \$65 plus \$21 for materials

Rolling Pin

HP08

Pre-requisite skills: Woodturning Fundamentals (TU04)

Create a beautiful and decorative Rolling Pin using a lathe and some decorative selections of wood.

Duration: 3 hours, 2 sessions (1.5 hours each)

Fee(s): \$75

Cheese and Hors D'oeuvre Serving Set

HP09

Pre-requisite skills: Woodturning Fundamentals (TU04)

In this class we will guide you through the creation of a set of serving tools based on the kit that we sell. You will leave with the following tools ready for your next gourmet feast:

- Cutter and fork
- Planer
- Cutter/breaker

Duration: 3 hours

Fee(s): \$75 plus materials

Trivets

HP10

Pre-requisite skills: Basic Safety (SF01)

Build these decorative pieces to hold hot pans and dishes. They look great on the counter when not in use and also make a unique gift.

Duration: 3 hours

Fee(s): \$

JOINERY

Basic Joinery

JN01

Pre-requisite skills: Basic Safety (SF01)

Learn various methods of connecting two pieces of wood (joinery). Instruction and hands on experience will be provided on butt, lap, bridle, miter and spline miter joints.

Duration:

Fee(s): \$45

Kreg Pocket Jig

JN02

Pre-requisite skills: Basic Safety (SF01)

Learn how to use this versatile yet powerful jig to make cabinet face frames or other joinery where tight fits are required. You will be provided hands on experience in the use of Kreg Pocket Hole Screws in a variety of common household and cabinet making situations.

Duration: 2 hours

Fee(s): \$45

Box Joints

JN03

Pre-requisite skills: Basic Safety (SF01)

Learn to use this attractive and functional joint for various projects. Techniques will be illustrated using a router jig including set-up, lumber preparation, lumber choices, and sizes and frequency of box joints.

Duration: 3 hours

Fee(s): \$65

Dovetail Joints – hand tools

JN04

Pre-requisite skills: Basic Safety (SF01)

Learn to use this attractive and functional joint to build drawer boxes and other projects. Techniques will be illustrated using hand tools, including set-up, lumber preparation, lumber choices, and sizes and frequency of the dovetails.

Duration: 4 hours

Fee(s): \$100

Dovetail Joints - router

JN05

Pre-requisite skills: Basic Safety (SF01)

Learn to use this attractive and functional joint to build drawer boxes and other projects. Techniques will be illustrated using a router jig, including set-up, lumber preparation, lumber choices, and sizes and frequency of the dovetails.

Duration: 4 hours

Fee(s): \$75

OTHER WORKSHOP AND WOODWORKING

Introduction to Woodworking

OT01

Pre-requisite skills: Basic Safety (SF01)

This class focuses on the woodworking process, and the basics of safely working in a shop while making a small project. Topics include design, construction, wood characteristics and selection and joinery choices. You will have the hands-on opportunity to learn how to use the machines and tools that you need to make your dream of working wood a reality. Participants will have lecture and demonstrations and hands-on use of the table saw, band saw and router, drill press, jointer, planer, disk sander and oscillating spindle sander.

Duration: 4 hours

Fee(s): \$65

My First Woodworking Project

OT02

Pre-requisite skills: follow directions, listen, and concentrate

Let a youngster learn about woodworking - where wood comes from, why it is strong and its many other attributes. With a parent, the young woodworker will make a bird feeder for home. Learn the safe use of hand tools - saws, hammers, drills and more.

Duration: 3 hours

Fee(s): \$nn

Finishing Basics

OT04

Pre-requisite skills: Basic Safety (SF01)

We will take you through the various techniques, including spraying, staining, how to prepare different types of wood for finishing, and how wood reacts with finish. The products covered include lacquers, stains, dyes, shellac, and sandpapers. Don't miss this chance to learn age-old finishing techniques. Come ready with questions about your own projects.

Duration: 4 hours

Fee(s): \$65

Summer with an Adirondack Chair

OT06

Pre-requisite skills: Basic Safety (SF01)

Build an Adirondack chair and enjoy it all summer.

Duration: 6 hours

Fee(s): \$115 plus materials

POWER TOOL SPECIFIC EDUCATION

Router 101

PT01

Pre-requisite skills: Basic Safety (SF01)

Learn the capabilities of this most versatile of tools. Information to be covered includes:

- Types of routers, their functions and uses
- Router operation safety
- Cutter and bit types and uses
- Router table features

Duration: 3 hours

Fee(s): \$65

Bench Top Router Table

PT03

Pre-requisite skills: Basic Safety (SF01)

Bring your own router to complete this knock down bench top router table. We will use easily accessible top grade plywood to assemble the top and sides, along with hardware to let you disassemble the table for easy storage. With a simple adjustable fence and dust collection, this router table will fit the bill for many household chores.

Duration: 3 hours

Fee(s): \$95 plus materials

Scroll Saw Basics

PT04

Pre-requisite skills: Basic Safety (SF01)

Scroll sawing is woodworking technique that is easy to learn and does not require a large collection of tools to create artistic and functional projects. Sign up today and learn the basics of scroll sawing as well as safe techniques, blade types, and basic scroll saw operation.

Duration: 3 hours

Fee(s): \$65

Intermediate Scroll Saw

PT05

Pre-requisite skills: Scroll Saw Basics (PT04)

Building upon your basic knowledge of working with the scroll saw, this class will expand into more complex cuts, including internal cuts, stack cuts for increased efficiency and angle cutting. You will be pleased with the additional dimension of your capability when you complete this class.

Duration: 3 hours

Fee(s): \$75

Jigs and you

PT06

Pre-requisite skills: Basic Safety (SF01)

Jigs, jigs and more jigs. This class will cover a variety of jigs that you can make for your table saw, Bandsaw or router table in easing the work of your projects and providing for precise repetitiveness. Excellent introduction into how you can develop your projects with accuracy and safety.

Duration: 3 hours

Fee(s): \$75

Table Saw Basics

PT07

Pre-requisite skills: Basic Safety (SF01)

Have you ever wanted to do some woodworking, but were hesitant to start because it seemed out of reach? Sign up today and learn the basics of table saws as well as safety, blade types, uses and basic table saw operation. You might discover the woodworker in you!

Duration: 3 hours

Fee(s): \$65

Table Saw Jigs & fixtures

PT08

Pre-requisite skills: Basic Safety (SF01)

Learn how valuable jigs can be in repetitive work on a table saw to provide consistent accurate cuts every time. You will make an actual jig to take home with you.

Duration: 4 hours

Fee(s): \$75 plus materials

Band Saw Basics

PT09

Pre-requisite skills: Basic Safety (SF01)

This class will teach you everything you need to know to purchase, set up and use a band saw. Learn the basics of a Bandsaw including parts, usage, tuning, blade choices, riser blocks, the proper way to rip, crosscut, re-saw and cut curves and circles. Veneer cutting will be covered, along with the concepts involved in making band saw baskets & boxes. This is the perfect class if you are just starting out with this incredibly versatile power tool.

Duration: 4 hours

Fee(s): \$65

Band Saw Boxes

PT10

Pre-requisite skills: Basic Safety (SF01)

Learn how to make intricate, well-designed and functional boxes on a Bandsaw with easily developed skills. Subjects covered will include planning, layout, and order of cutting, finishing and finishes, as well as flocking for the interior. When you leave this class, you will have a bandsaw box to take home with you. Your family and friends will be impressed!

Duration: 4 hours

Fee(s): \$65 plus materials

Learn to use your power tool

PT11

Pre-requisite skills: Basic Safety (SF01)

This course consists of one-on-one training on one of the following power tools:

- SawStopTableSaw
- Lathe
- Bandsaw
- Scroll saw

Our experienced staff will provide you with individual training on the power tool of your choice. Topics covered will include:

- Power and Dust management requirements
- Basic setup – out of the box
- Key points for safe use
- Specific features/functions unique to the power tool selected
- Much more

Duration: 1 hour

Fee(s): Free with the purchase of a power tool valued at more than \$250

PYROGRAPHY (WOODBURNING)

Pyrography I – Basics Intro to Tools & Techniques

PY01

Pre-requisite skills: none

This three-hour hands-on workshop introduces the participants to the various types of pyrography (wood burning) tools/nibs and their intended uses. We also discuss the importance of safety precautions and focus on basic pyrography techniques.

Duration: 3 hours

Instructor: Tia Flores

Fee(s): \$55

Pyrography IB – Basic Techniques for a Specific Project

PY01B

Pre-requisite skills: none

In addition to being introduced to the pyrography basics, this workshop is designed for a particular project; ex: Applying Pyrographic Designs onto Wine Gift Boxes.

Duration: 4 hours

Instructor: Tia Flores

Fee(s): \$65

Pyrography 2 – Fur and Feathers

PY02

Pre-requisite skills: Pyrography I (PY01)

In addition to basic pyrography techniques, participants will learn how to transfer designs/drawings onto two and three-dimensional surfaces. We will concentrate on applying various pyrography styles pertaining to fur and feathers while focusing on line quality, value contrast and shading techniques.

Duration: 4 hours

Instructor: Tia Flores

Fee(s): \$75

Pyrography 3 – Scenic Landscapes

PY03

Pre-requisite skills: Pyrography 1 (PY01)

In addition to advanced pyrography techniques, this five-hour workshop focuses on composition as it pertains to scenic landscape designs. We will also discuss the parameters of when and how to apply color to enhance your pyrographic designs.

Duration: 6 hours

Instructor: Tia Flores

Fee(s): \$85

Pyrography 4 – Still Life Compositions

PY04

Pre-requisite skills: Pyrography 1 (PY01)

In this workshop participants will learn how to incorporate the composition principles as they pertain to still life designs, such as form, light, cast shadows and contrast. They will learn the various burning techniques that enhance the depth and detail to their still life composition.

Duration: 6-7 hours

Instructor: Tia Flores

Fee(s): \$85

Pyrography 5 – Faces and Features

PY05

Pre-requisite skills: Pyrography 1 (PY01)

In this workshop participants will learn how to apply various burning techniques that realistic dimension to portrait compositions and the facial features.

Duration: 5 hours

Instructor: Tia Flores

Fee(s): \$85

Pyrography 6 – Advanced Techniques & Color Application ***PY06***

Pre-requisite skills: Pyrography 1 (PY01)

This workshop focuses on the wide range of pyrography tips/nibs (skew, point, flat and specialty) and their intended uses. We will also discuss color theory and how to apply different color methods to enhance your pyrographic compositions.

Duration: 4 hours

Instructor: Tia Flores

Fee(s): \$75

Pyrography 7 – Borders & Celtic Knots ***PY07***

Pre-requisite skills: Pyrography 1 (PY01)

Through various pyrographic techniques, participants will learn how to create and apply repetitive patterns, borders and Celtic knots that are sure to enhance any two or three-dimensional surface.

Duration: 4 hours

Instructor: Tia Flores

Fee(s): \$75

Pyrography 7B – Borders, Celtic Knots & Pyrography Techniques for Woodturner ***PY07B***

Pre-requisite skills: Woodturning Fundamentals

This workshop has been customized for the woodturner interested in learning how to design and apply various pyrographic borders, patterns and Celtic knots to enhance their wood-turned vessels

Duration: 4 hours

Instructor: Tia Flores

Fee(s): \$80

Pyrography 8 – Calabaza Spirit Pouch

PY08

Pre-requisite skills: Pyrography 1 (PY01)

Using a small calabaza (gourd), participants will design and create a functional and decorative pouch necklace. Pyrographic techniques will be used to apply designs on the surface of the calabaza.

Duration: 4 hours

Instructor: Tia Flores

Fee(s): \$75 plus \$15 materials

Pyrography 9 – Animal Totem Masks

PY09

Pre-requisite skills: Pyrography 1 (PY01)

Participants will use a calabaza (gourd) as a base to create a unique mask. In addition to the technical aspects, we will explore the various meanings attached to certain symbols, colors and embellishments. Pyrographic techniques will be used to apply designs.

Duration: 5 hours

Instructor: Tia Flores

Fee(s): \$85 plus \$15 materials

Pyrography 10 – Calabaza Spirit Vessels

PY10

Pre-requisite skills: Pyrography 1 (PY01)

This is an introductory workshop to gourd art. Each participant will prepare, design and create a personal Spirit Vessel. In addition to the technical aspects, we will also discuss the importance of design composition, line, balance and color. Designs will be applied through various pyrographic tools and techniques.

Duration: 6 hours

Instructor: Tia Flores

Fee(s): \$95 plus \$15 materials

SAFETY

Basic Safety

SF01

Pre-requisite skills: none

This class is a pre-requisite for all other classes – whether you're new to woodworking or an experienced hand. Poor training and bad habits cause accidents. Most woodworking accidents are due to the operator's hands coming into contact with a blade or cutter of some sort. Enjoy our shop to the max! Learn how to use tools safely and in the proper way. The tools we discuss include the table and band saws, jointer and planers, drill press and lathes.

Duration: 2 hours

Fee(s): \$20, applied as a credit when you purchase your next class

Safety – Shop Rental

SF02

Pre-requisite skills: Basic Safety (SF01)

This class is a pre-requisite for use of our shop on a rental basis. Following payment for a Shop Rental subscription the customer will be provided a self-assessment questionnaire, to be completed at home. The answers given will drive the content and duration of a one on one training session to be completed with a member of our staff prior to independent shop usage.

Duration: 2 hours

Fee(s): none, time required is part of your initial shop rental time

SHOP SETUP & DESIGN

Shop Design

SU01

Pre-requisite skills: none

It is time to get going on your plans for your workshop. Learn how to position your machines in a limited space, how to store lumber, and the importance of dust collection. Join us as we present tips and insights for design and layout your workshop. We will cover things like power needs, lighting, dust collection & air filtration, workflow, and options you can use based on the specifics of your woodworking.

Duration: 3 hours

Fee(s): \$65

WOOD TURNING – LATHE WORK

Introduction To Pen Turning

TU01

Pre-requisite skills: Basic Safety (SF01)

Learn about pen turning on a mini lathe and the wonders of working with wood to produce beautiful gifts. Each student will turn 2 pens to take home and dazzle your friends!

Duration: 3 hours

Fee(s): \$60

Intermediate Pen Turning – Acrylic Pens

TU02

Pre-requisite skills: Introduction to Pen Turning (TU01)

Expand your pen turning skills by learning how to turn acrylic forms along that provide variety and interest to your pens. This class will cover the actual turning and finishing of acrylic. Each student will leave with a completed acrylic pen.

Duration: 3 hours

Fee(s): \$75

Intermediate Pen Making - Advanced Techniques

TU03

Pre-requisite skills: Introduction to Pen Turning (TU01)

Expand your pen making skills by learning some of the most sought after additional techniques. Topics covered will include:

- Use of CA (CyanoAcrylate) glue as a durable and attractive finish. We will instruct in the use of the “BLO” method and in the use of the specialized CA Wood Finish product that we carry in our store.
- Creation of a simple and unique pen blank utilizing the bandsaw and veneer material
- Creation of a pen blank which will produce a Celtic Knot pattern when turned

The student will leave the class with two pen blanks created during the class, to turn at home.

Duration: 3 hours

Fee(s): \$70

Woodturning Fundamentals

TU04

Pre-requisite skills: Introduction to Pen Turning (TU01)

This class is the first in a series of classes teaching how to turn decorative objects. In this introductory class the student will:

- Learn the various pieces of a lathe and its usual accessories, and their individual functions and usage (including a chuck)
- Become familiar with the most common turning tools including roughing gouge, bowl gouge, spindle gouge, parting tool,
- Be introduced to basic measuring techniques appropriate to woodturning
- Learn to use basic turning tools to form beads, coves, tendons and recesses
- Use the above skills to produce finished products including a dibble, spin top and honey dipper.

Duration: 3 hours

Fee(s): \$50

Bowl Turning Fundamentals

TU05

Pre-requisite skills: Woodturning Fundamentals (TU04)

Learn to turn a bowl in a safe and friendly environment. We don't believe in mistakes, we will respond to the wood and make adjustments. Every one will finish a bowl to take home to friends and family, which will make wonderful gifts that can last a lifetime.

Whether this is your first work on the lathe or if you are making bowls and want a new technique to complement a previous class or self-instruction. This class will help you on your woodworking journey.

During the class you can expect to learn:

- Safety (at *the Woodworking Source* safety is paramount)
- Proper use of bowl turning tools
- Sanding and Finishing techniques
- Our experienced instructors will help you take stock wood - and by removing streams of shavings - a bowl slowly emerges.

You will take home a bowl that can be proudly displayed.

Duration: 3 hours

Fees: \$75

Segmented Bowls

TU06

Pre-requisite skills: Bowl Turning Fundamentals (TU05)

Think bowl turning is fun? Wait until you try a segmented bowl! Learn to create segmented masterpieces that add the complexity of multiple segments of woods in intricate designs before even starting turning process. This great introduction to segmented turning will cover the design, layout and process of developing segmented blanks and color bands that you can then turn. You need to be fully familiar with turning when you take this class - for intermediate or advanced bowl turners only.

Duration: 5 hours

Fee(s): \$135

Natural Edge Bowl

TU07

Pre-requisite skills: Bowl Turning Fundamentals (TU05)

Expand your wood turning experience by tackling a natural edge piece of wood and incorporating the natural edge into a beautiful bowl. This class will cover the approaches to take to preserve and incorporate the natural edge.

Duration: 4 hours

Fee(s): \$75

Pepper and Salt Mills

TU08

Pre-requisite skills: Woodturning Fundamentals (TU04)

Peppermills can be a challenge. However, we will follow a process that makes it manageable to produce a very nice peppermill. Once you have made one, your friends and family will want you to do more! We will discuss the proper drilling techniques, the proper order in which to do each step for the best results, and assembly.

Duration: 4 hours

Fee(s): \$75 plus materials

Intermediate Bowl Turning

TU09

Pre-requisite skills: Bowl Turning Fundamentals (TU05)

Expand beyond the basics in this most informative course on more advanced bowl turning techniques, use of inlay, hollow-forms, and more intricate patterns. We offer a variety of classes that will expand your turning knowledge. Examples include:

- Hollow Forms

- Lidded vessels
- End grain boxes
- Platters
- "Square" forms
- Coring of bowl blanks using the McNaughton System

Duration: 4 hours

Fee(s): varies

Turning Ornaments

TU10

Pre-requisite skills: Shop Safety (SF01)

You will learn a variety of approaches to producing beautiful wooden ornaments for you to use or to give to family and friends for the holiday season. These ornaments make wonderful holiday gifts! You will leave the class with 2 ornaments of your own design.

Duration: 3 hours

Fee(s): \$60

How to Sharpen Your Lathe Tools

TU11

Pre-requisite skills: Shop Safety (SF01)

This class will help you become familiar with a task that we all seem to neglect & struggle with - sharpening your LATHE TOOLS. Learn how easy it is to sharpen most any lathe tool using a slow speed grinder and the proper grinding jigs. Practice sharpening your own tools & leave with razor sharp cutting edges! Please bring your own tools for this class, so you can take them home and see the difference having a sharp tool can make!

Duration: 2 hours

Fee(s): \$35

Turning Bottle Stoppers

TU12

Pre-requisite skills: Woodturning Fundamentals (TU04)

You will learn a variety of approaches to producing beautiful bottle stoppers for you to use or to give to family and friends for the holiday season. These stoppers make wonderful holiday gifts! You will leave the class with two completed stoppers.

Duration: 3 hours

Fee(s): \$60

Turning a Penlight Key Chain

TU13

Pre-requisite skills: Shop Safety (SF01)

You will learn the skills to make a penlight key chain for yourself or as a gift. You will leave with a great custom key chain, which will help you safely find your way in the door at night.

Duration: 2 hours
